Wednesday, Aug. 28, 1894.

"Law and Order."

Our metropolitan brother, the able News and Courier, of last Saturday has this to say of a recent editorial in the Press and Banner "LAW AND ORDER."

"LAW AND ORDER."

Last winter or spring, when the State constables were having some trouble with the bilind tigers in Charleston, the esteemed Abbaville Press and Banner had a great deal to say in denunciation of the people of this city. It was far from choice in the language it used and without any special provocation that we could discover was particularly savage in its comments. Among other things it declared that the people of Charleston must be taught to respect the laws or that they would be crushed utterly. We did not protest against the intemperance of our contemporary then, and we do not protest now; we simply wish to show what respect it is entitled to as the self-constituted exponent of law and order.

Last week Judge Aldrich decided in the Alken city council case that the Dispensary Act of 1893 is unconstitutional. He was respectful in his statement of the law and the facts in the case, he did not say anything offensive about the Governor or the board of control or the law itself. He simply discharged his duty, as he saw it, and under the sanctity of his cath of office. But his decision did not please the Press and Banner, the aforetime exponent of law and order, which goes at him in this fashion:

"The patriotic little town of Alken sought out suiture the total of the sanctitude of the sancti

"The patriotic little town of Aiken sought out an nunction to close the dispensary in that place, and ladge Aldrich granted the prayer of the complain-

"That is all right. If Aiken and the learned Judge

"That is all right. If Aiken and the learned Judge prefer blind tigers to the dispensary they ought to be accommodated—temporarily, at least.

"But under the circumstances, it might be well to establish a dispensary in some other town in the county. If Montmorenci wants it, why not establish it there?

"The days of the bar rooms are numbered in South Carolina. It is evident that a great majority of the people favor the dispensary plan of dealing with the liquor question, and it isn't for Judges and Anarchists to asy that the people shall not rule."

There is more of the same sort in what our contemporary says, but we have given quite enough to show how little it amounts to as an exponent of law and order. "It isn't for Judges and Anarchists to say that the people shall not rule." That is a fine sentiment, truly, to come from any conservative and responsible newspaper.

As presented above the Press and Banner is

As presented above the Press and Banner is placed in a very ugly light before "the people for the colleges, or for assessing the property of Charleston." But as it is better to suffer a bad presentation than to go on the defensive, we will attempt to justify the position into which the extracts and the remarks upon the same have put us.

If our esteemed brother will examine the files of his own paper, we think he will be convinced that the tenor of his editorials has been to champion the cause of "the people of Charleston" who openly violated the liquor law of the State, and that the aforesaid editorials would lead the public to believe that the keepers of the illicit rum holes were "the people of Charleston," and that they, rather than the regularly constituted officers of the State, had the sympathies of "the people of Charleston,"-the people to whom the quoted paragraph is made to appear to have refer

At this distance it is hard to tell exactly the condition of affairs in Charleston. It is impossible for us to see his heart and account eral editorial conduct of the News and that the price is below living or remuneral Courier has made upon the mind of the Press

We believe that the files of his paper will justify the belief that that paper has not for, ment in the world, employing several thou-State or of the city of Charleston.

financial interests of the city of Charleston. | the President. We believe that it has allied itself with an element that has but little part or sympathy in the former fame and glory of a city, whose leading people are of the best and of the wealthiest people of the State. We believe that the files of the News and

Courier will show that more space and greater energy has been given to the encouragement of the illigit traffic in liquor in the city of Charleston than has been given to the upholding of law and order.

We believe that the files of the News and Courier will show that more editorial space has been given to the attempted ridicule o the honest and unoffending country peopleby maligning their choice of officers-tha has been given to the reproval of "the people of Charleston" for open and wilful violations of the liquor law.

We believe the files of the News and Courier will show that ten times the editorial space has been given to abuse, or ill-humored ccusations, or unnecessary and unfair ar raignment of the Government than has been given to the best interests of Charleston-in building up its waste places and in attracting trade and commercial prosperity to the city. We believe in its efforts to destroy the credit

of the State and to prevent the refunding of the State debt that, in so far as it did thi it acted a part not different from that which a public enemy might have acted.

whom that paper is presumed to represen when it attempts to hold up to contempt the great mass of the people of this State. We believe that the News and Courier's ed

itorials would justify the belief that it is firm ly and unalterably of the opinion that "the people of Charleston,"-we mean the lawless element-are better than the country people

We believe that the News and Courier, and "the people of Charleston"-the anarchistsare indirectly responsible for the killing that occurred at Darlington.

We believe that the News and Courier took advantage of the incident-or fact of the out rage against law and order-to encourage the mob to make effort to overthrow the legally constituted lawful authority of the State.

We believe that nearly all the extract which the News and Courier has copied into that paper about the government, or the State, has had for its purpose or intent the lowering of public respect for the people of

South Carolina. We believe that the News and Courier ha manifested so much bitterness and malignity that it has alienated from its support thou sands of people who now look to that alienthe Atlanta Constitution-as their city news

paper and political adviser. We believe that the News and Courier honestly believes that the old set will sooner or later be restored to their old places in the offices of the State. In connection with this we would repeat what a learned gentlemanan Anti-said recently when asked for his

opinion about this matter. He said: They would not sooner regain the offices than would the slain of Lee's army respond to the beat of the drum.

This newspaper wants to be friendly with

doors of the illicit liquor dealers in Charles-doors of the illicit liquor dealers of the illic leston, and could realize that there is some decency and some respectability beyond the city limits, peace would be restored to this State, and unprecedented prosperity would come to that newspaper, and to that city. Harmony and good feeling would prevail between city and country people, and that paper would soon become, as it deserves to be, son.

Orange blossoms from across the town are cently blooming their sweet down are sently blooming their sweet down are lower in gently blooming their sweet down, and 'ere long a double wedding of two of our best young ladies will be led to hymens altar. Gov. Tillman has armed the Troy Rifles to the teeth and we feel sure they will respond when called upon for duty.

Maj. J. M. Dorn leaves to-morrow for New York.

Born to Mrs. J. C. Kennedy, August 26th, a son. a power in this State, but as long as it continues to fight the people, and to hold them up to public ridicule, it is not the proper ex-

ment of the good name or the best interests of South Carolina. Let it cease to wash dirty linen in public. In two years of unceasing oitterness it has not, we presume, gained a ingle convert to its teachings.

Let it look at the situation and realize the condition that confronts us. Let it recognize that the country people are at least worthy of respect, and that because they favor a particular candidate for office, is no just or reasonable grounds for opening on his head the vials of wrath.

From time immemorial the minority has yielded obedience to law and given respectful regard to the officers whom the people have elected; and we see no reason why Charleston should not behave herself, and obey the laws of the State.

Let the News and Courier not mistake blind prejudice and unrelenting hatred for princi-

AS TO THE JUDGES.

While our information is deficient, yet we believe that it would be impossible to prove that the judiciary in a hundred years had interfered as much with a co-ordinate branch of the government, as has been done in the last

In future, we hope that the Legislature may relegate to the rear every Judge who assumes -without good cause-to interfere with the executive branch of the government.

We have had enough of such interference and we are tired.

We hope, too, that every power known to the government may be used to make "the people of Charleston" obey even the whiskey laws of the State-we mean the anarchists and people who think mob rule better than the civil government. Of course we have no reference in this -as we had none in our Dre vious article,-to the good law-abiding people of that city.

The Public Printing.

Recenty the act appointing a public printer tas been discussed by the politicians in Co-

We have not read the arguments pro an con, except the editorial in the Register. That paper argues, we think, from a wrong

Viewing the matter as we do, the question is not altogether one of cheapness, and againit is not altogether one of promptness and per

fection of work. We contend that the office of public printer is one to be given to the winning political party or faction who may rule the State for

the time being, just as the office of governor is given. We see no reason for adopting a different method for securing a public printer than is taken for securing keepers for the penitentiary, or the asylum, or for securing professors

and collecting the taxes. If the State should adopt the method of let ting out its public offices to the lowest bidder. the plan would be only slightly different from the old plan of seiling the offices of hon-

or to the highest bidder. The Press and Banner believes that a fair price should be established, and that to the

victors belong the spoils. Especially is the office of public printer an important one. More than any other officer, might his work, or lack of work, affect legislation. For this reason, we believe the public printer should be in hearty sympathy with the party in power.

Let Mr. Calvo have the printing now. Es. tablish the precedent. Then when the newer element or the older one gets in power, take it from him, and give it to the printer who is in sympathy with and thoroughly identified with the party then in power.

There is in the fight, as now made, absolutely definitely for his motives, but we can say, and nothing that we can see worthy of notice or have a right to say, what impression the gentive figures.

The United States government owns, a

Washington, the largest printing establishsay two years, represented the sentiment of sand printers, pressmen, book binders, &c the sober law-abiding people of either the This huge establishment is as much subject to political changes as the treasury or post-We believe in that time that that paper has office departments, the Public Printer always not properly represented the commercial or being selected from the political friends of

General Butler Explodes a Bomb After filing his pledge to abide the result of

the Democratic primaries, Senator Butler has withdrawn the same, an account of which we publish elsewhere. Of course Senator Butler's friends must

know that he cannot be elected by Democratic votes.

The United States Senator is elected by the General Assembly, and it is not to be expected that other than Democrats will control the next Legislature.

Senator Butler's only hope of accomplishing anything must be in a contest before the United States Senate.

The anti-Tillman faction refused to vote for Haskell in 1890, and it is not to be supposed that any considerable number of white men will vote for Butler representatives in the General Assembly.

The Press and Banner expects to support the Democratic party forever, and having voted in the primary yesterday, we are bound to support the nominees of the party. We have no such fears, as expressed by the

Register, that bloodshed will result because of Butler's act. As far as we are informed, nobody in this county is so extremely anxious to re-elect him Senator, as to induce blood-

shed or murder. Bolters will find poor comfort in old Abbe ville, where the people abide by the laws of the State, and comply with the rules of their political party.

Educational.

When contemplating the sending of your son or your daughter to college, be sure to examine the advertising columns of the Press and Banner, where the advertisements of the est institutions of the country are sure to be

found, namely: Columbia Female College; Erskine College; Due West Female College: South Carolina College;

Wofford College; Davidson College; Presbyterian College at Clinton; Winthrop State Normal College.

This newspaper wants to be friendly with the News and Courier.

The whole people of the State want to be friendly with their metropolitan paper.

They are anxious that it should be their friend, and not their enemy or maligner.

And if that newspaper could see beyond the drors of the illicit liquor dealers in Charles-

Big bargains in clothing of all kinds. P

One More Town in Line.

The city of Anderson, which has heretofore failed to enforce the whiskey laws, because of opposition to the Government, or perhaps because of other reasons, has determined to enforce the law. The Press and Banner makes note of the fact with special pleasure, and congratulates the city of Anderson on adopting the wise and proper course. Whether the gentlemen comprising the city council, endorse the law individually or not, it is their duty as guardians of the public peace to enforce the laws which they find on the statute The following proclamation by the Mayor

explains itself:

PROCLAMATION.

Whereas, at a meeting of the present Council of the City of Anderson, held on the 20th inst., the following resolutions were adopted: Whereas, in a recent decision of the Supreme Court of this State, it has been declared unlawful for a municipality to grant licences for the sale of intoxicating liquors; and, whereas, in compliance with that decision the City Council of Anderson, S. C., has passed an Ordinance prohibiting the sale of liquor within the corporate limits of this Town; and, whereas, it is currently rumored and believed that certain parties, in defiance of sald decision and sald Ordinance, are boldly selling liquor in the Town, to the outrage of the peace and dignity of the community. Now, therefore, in order to settle and establish the attitude of this Administration on the question, be it

1. Resolved, That we stand firmly for law and order, a rigid and strict enforcement of all Ordinances, and the suppression of crime, that we appeal to all our people to cease violations of law, and invoke the aid of all classes in our efforts to put down lawlessness and establish and maintain the supremacy of law.

2. Resolved, That we request the Mayor the content of the co

law.

2 Resolved. That we request the Mayor to issue a proclamation, calling upon all those citizens who are selling liquor in the City of Anderson in violation of our Ordinance to stop, and invoking the aid of all iaw-abiding citizens in suppressing this illicit traffic.

traffic.
3. Resolved, That the Police be, and are nereby, instructed to give this matter their especial attention, to watch carefully after violations of the liquor Ordinance, and to bring each and every offender to speedy justice.

bring each and every offender to speedy justice.

Whereas, it has become my duty to comply with the request of said City Council as set forth in said resolutions; now, therefore, I, G. F. Tolly, as Mayor of the said City of Anderson, and in compliance with said resolutions, do issue this my proclamation warning all persons who may be engaged in this unlawful saile of intoxicating liquors, in violation of the City Ordinances, forthwith to desist from such unlawful traffic, upon pain of the penalties that may be incurred by reason of such violations; and I do further invoke the co-operation of all law-abiding citizens to aid in suppressing said unlawful traffic, and enjoin upon the City Police to look carefully after all violations of the City Ordininances, and to bring all offenders to justice, as they are instructed to do by said resolutions.

In witness whereof I have hereunto set my hand and caused the seal of the City L. S. | to be affixed. G. F. Tolly, Mayor.
